- Ach, N., 176, 212 n33
 administration, 76, 79–80, 105–106, 109–110, 190, 197
 educational, 103–104, 106, 113–114, 222 nn4–8, 131, 146, 150
 see also applied psychology; education; examinations; selection; social control; social statistics
 aggregate data, 77, 114, 121–124, 127–128, 132, 153–154
 and laws of behavior, 129
 and personality research, 165, 177
 see also attribution; collective subjects; construction of objects; knowledge; statistical methods
 Allport, G. W., 239, n12, 246 n24
 anthropometric laboratory, 54–56, 214 n17
 application, context of, 187–191, 197
 applied psychology, 66, 104–106, 223 nn10–14, 149, 189–190
 see also knowledge: useful
 arithmorphism, 139, 175
 see also knowledge: quantitative; measurement; serializing
 artifacts, 2, 3, 61, 125, 154
 see also construction of objects; experiment; psychological
 Aster, E. von, 47
 attribution
 causal, 111–112
 collective, 74, 77–79, 81, 87, 88
 individual, 70–74, 77, 186
 see also collective subjects; knowledge claims; measurement
 Avenarius, R. H. L., 211 n27
 Baldwin, J. M., 105, 108
 Bergson, H., 232 n12
 Bernard, C., 216 n5
 Bhaskar, R., 192, 274 n34
 Binet, A., 44, 53, 108, 110, 139, 212 n36, 214 n9

 Brentano, F., 35, 209 n2
 Buckle, H. T., 77
 Cattell, J. McKeen, 46, 54, 64, 79, 133, 214 n15, 215 n27, 248 n42
 character, 168, 170, 171, 177
 Charcot, J. M., 62, 215 n24
 child study, 75, 217 n14, 102, 126
 clinical experiment, *see* experiment, clinical
 collective subjects, 84–87, 110, 113, 124
 see also aggregate data; knowledge: statistical
 Comte, A., 34, 206 n15
 consciousness, private, 18, 30–31, 34, 37, 70, 148, 175
 see also introspection
 construction of objects, 2–4, 52, 57–58
 character and personality, 159–165, 168, 174–175
 private consciousness, 21, 24, 30
 statistical, 84–87, 107–108, 110, 116, 151
 see also artifacts; attribution; collective subjects; experiment, psychological; intervention, psychologist's; introspection; investigative practice; knowledge; knowledge production; measurement
 constructivism, limits of, 191–199

- context of discovery, 2–3
 continuity assumption, *see* variability
 control group design, 86, 113–117, 225 n38
 see also statistical methods
- Darwin, C., 75, 77
 Dembo, T., 174
 Devereux, G., 202 n9
 Dilthey, W., 166–167
 disciplinary project, 39–41, 125, 134, 148
 see also interests; professional project
- Ebbinghaus, H., 91, 106, 142–146, 149
 Edgeworth, F. Y., 218 n22
 education, 79, 102–103, 130–131, 222 n4
 see also administration; examinations;
 school work
 epistemic access, 195, 196
erleben, 166–168
 examinations, 55, 79, 109, 185, 189,
 224 n27
 experiment, clinical, 52–54, 61–62, 92,
 214 n8
 see also experiment, psychological
 experiment, psychological
 institutionalization of, 9–10, 28, 32
 Leipzig model, 29–33, 48, 49–52, 63–67
 natural science ideal of, 8–9, 31, 88–90,
 91–92, 94, 99–100, 175, 186–7
 participants' identity, 32, 50, 53, 90–99
 social organization of (*see also* power)
 8–9, 30–33, 49–54, 58, 92
 social psychology of, 8, 59–63, 174–175
 Wundt's limitations on, 36–38
 see also experiment, clinical; investiga-
 tive practice; knowledge production
 experimental subject
 origins of term, 53–54
 rights of, 183–184
 expression, psychology of, 167–169
- Fechner, G. T., 29, 137, 138, 139, 141,
 143, 219 n28, 231 n2
 Foucault, M., 190
 Freud, S., 193
 function, concept of, 25–26
